Year Licensed: 2016

SAYLA serves as an intermediary between young professionals and their more experienced peers. SAYLA's service is targeted at creating a foundation and network for future generations of lawyers who may lack a mentor or some other form of professional reassurance. I would like to be involved in services geared towards fostering a greater sense of comradery in our profession from the ground up. Serving as a member of SAYLA's board would allow me to assist in building that camaraderie amongst the new members to our profession as well as strengthening the camaraderie already existing in the San Antonio Bar. I believe I would make a welcomed addition to the SAYLA's board as align with its purpose of fostering community-based support for the newly licensed attorneys within the San Antonio area. If elected, assure you that I will work hard, be a team player, and ultimately assist in any way I can. Thank you for this opportunity.
